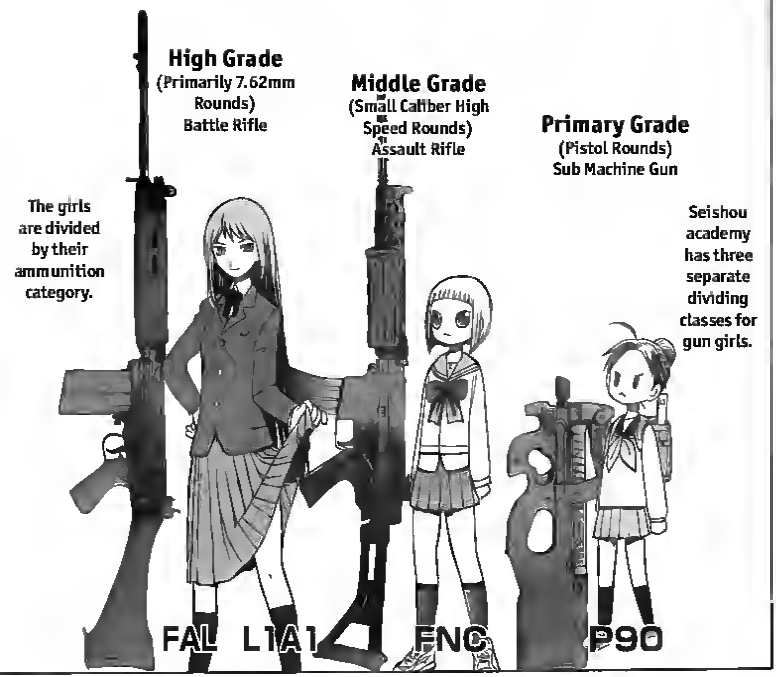
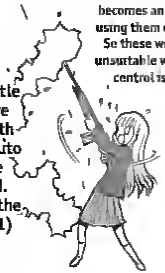
The girls are divided by their ammunition category.

Seishou academy has three separate dividing classes for gun girls.



However, the recoil on these rifles is considerably more powerful as well. Control of the weapon becomes an issue when using them on full auto. So these weapons are unsuitable when precise control is needed.

Some battle rifles are made with the full auto feature omitted. (Such as the FAL L1A1)



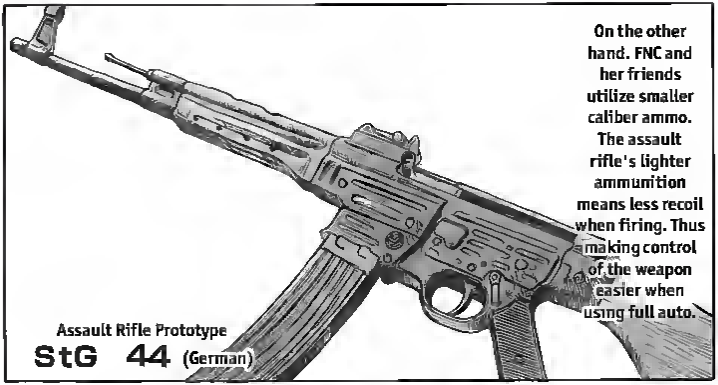
If you're talking about the most tomboyish fully automatic rifle than it has to be M14!! However the U.S Special Forces stand by it's reliability.

7.62mm×51

5.56mm×45

The rifle's that use this ammunition are therefore differentiated from assault rifles by calling them battle rifles.

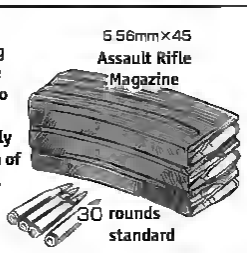
The 7.62mm ammo used by the higher grades has considerably more power and longer range than FNC and her friends.



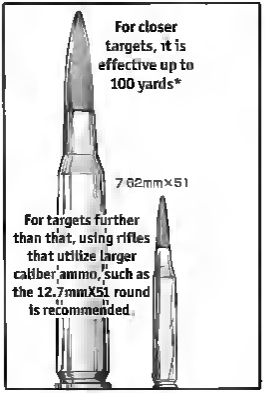
Assault Rifle Prototype
StG 44 (German)

On the other hand. FNC and her friends utilize smaller caliber ammo. The assault rifle's lighter ammunition means less recoil when firing. Thus making control of the weapon easier when using full auto.

Thus allowing a single soldier to cover a drastically wider area of control.



The smaller size and weight of the 5.56mm rounds allows the soldier to easily carry more ammunition.

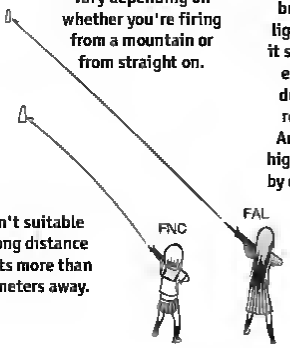


For closer targets, it is effective up to 100 yards*
7.62mm×51
For targets further than that, using rifles that utilize larger caliber ammo, such as the 12.7mmX51 round is recommended.

*Used in close encounter situations, such as hostage rescue.

Obviously results can vary depending on whether you're firing from a mountain or from straight on.

However, the bullet being lighter means it suffers more energy loss due to wind resistance. And it's also highly affected by cross winds.



It isn't suitable for long distance targets more than 300 meters away.

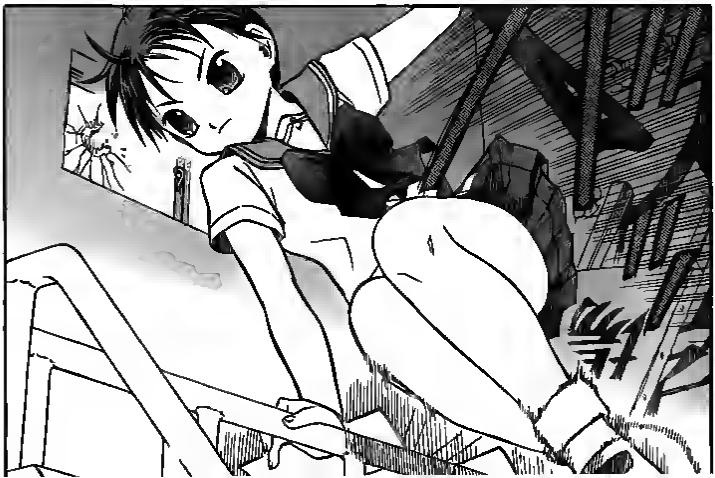
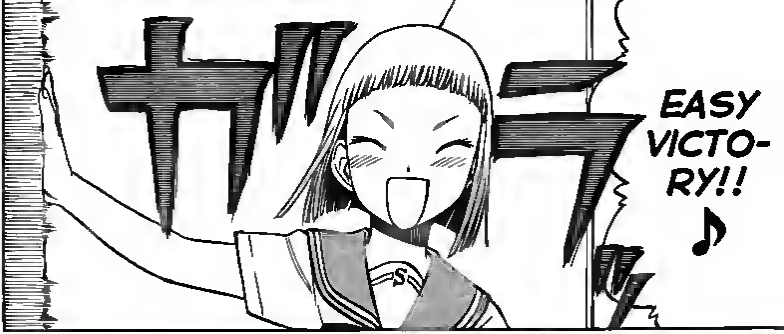
TWO SECOND FIRING TIME THREE SHOTS GROUPED APPROXIMATELY EIGHT CENTIMETERS APART

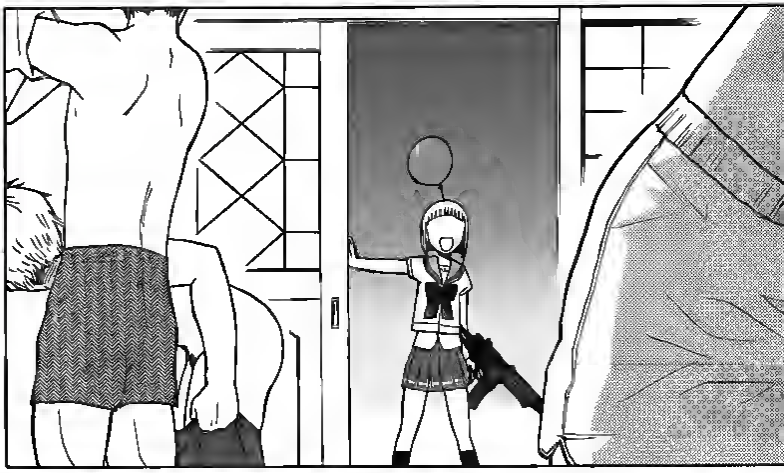


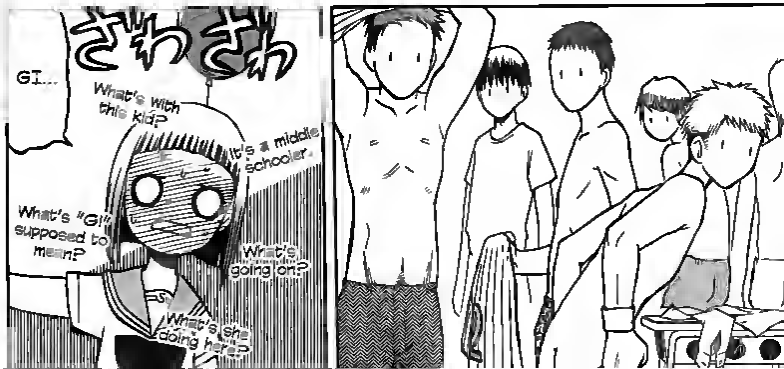
I'LL BE AIMING FOR YOUR CHEST, G3-SENPAI!!
FINE, BRING IT ON, SIG!!
WHICH GUN IS NUMBER ONE AT SNIPING?
I'LL BRING THIS TO A QUICK CONCLU-SION!!

SFX. KACHA
G3....
This isn't that type of fight you know.
IF I CAN JUST GET TO THE FLAG, I CAN FINISH THIS ....
FAL-NEE'S CLASS IS ON THE SECOND FLOOR ...!!
Funko: FNC Girl Because of her good nature, she is often made fun of by everybody



EASY VICTO-RY!!

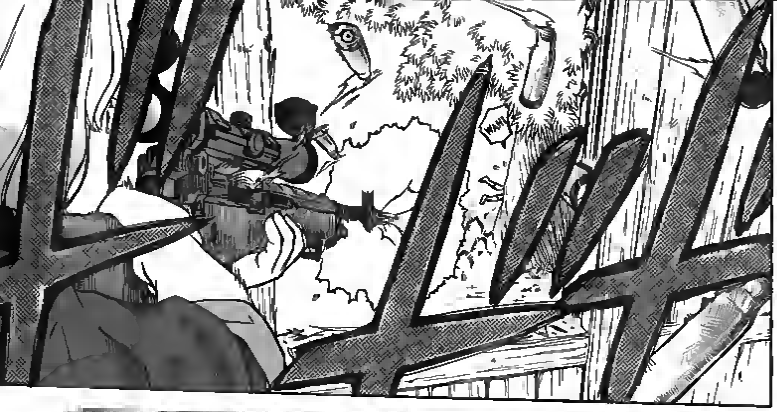




さわさわ
GI...
What's with this kid?
It's a middle schooler.
What's "GI" supposed to mean?
What's going on?
What's she doing here?

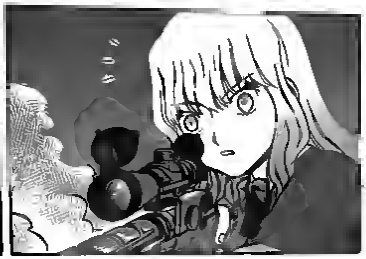
GYAAAAA!!
WHILE THE CLUB'S BUILDING IS UNDER CONSTRUCTION, THE BOYS ARE USING OUR CLASS TO CHANGE
THAT'S RIGHT, I FORGOT TO TELL THEM.
Ha ha ha ha ha
WELL, IT'S YOUR OWN FAULT FOR NOT CONFIRMING THE FLAG'S LOCATION BEFOREHAND, FUNKO

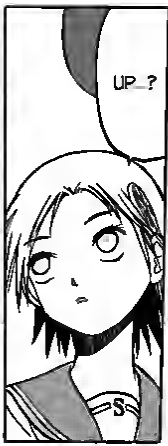
IS HERE WITH ME.
THE FLAG-

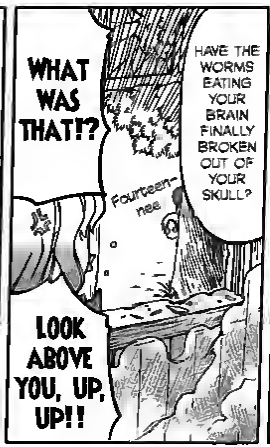


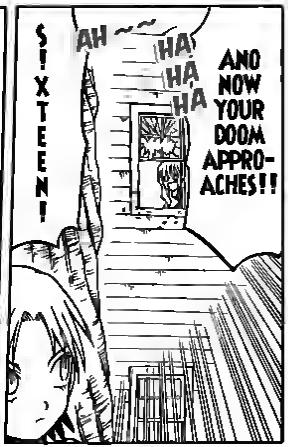
Mi6
She has a rough personality and a foul mouth, but she's really very kind. She's Fumio's best friend.

LISA!
A very quiet girl. She is prone to illness, and she idolizes Fumio's sister, Fai.





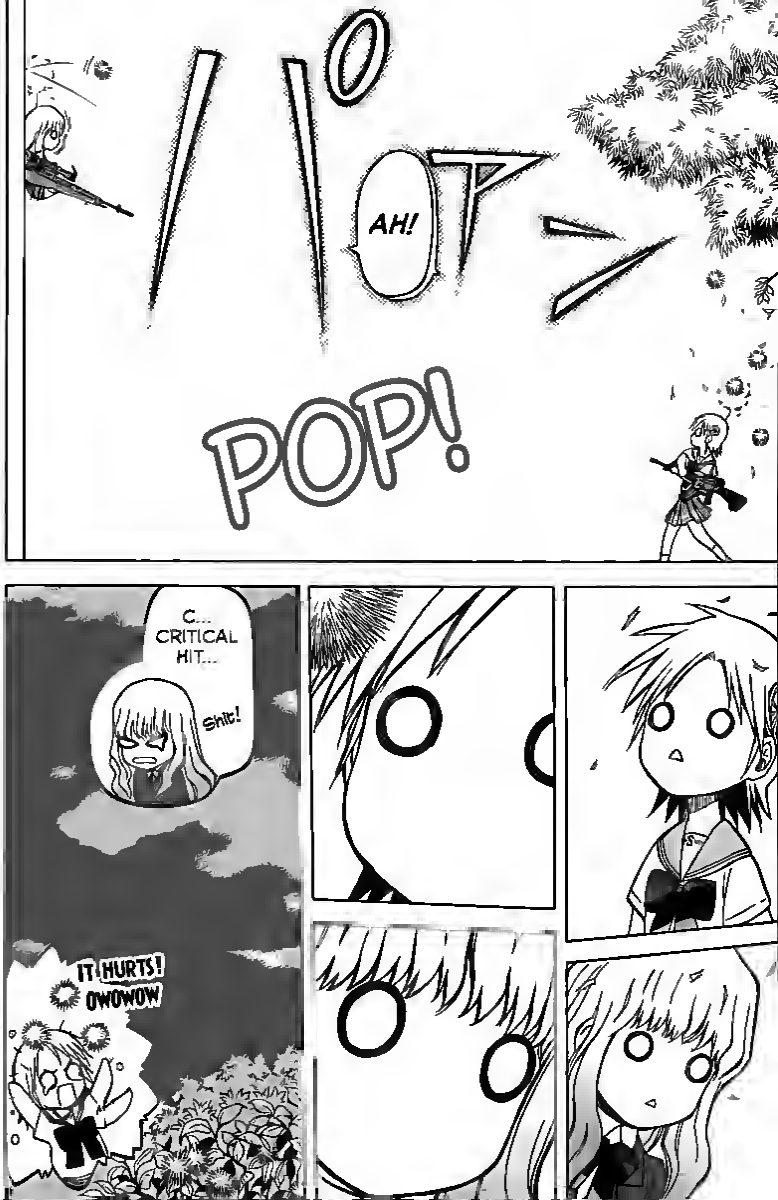




TL NOTE. OUJOUSHITEKURI ~ COME DIE A HAPPY DEATH. SHE USES THE KURI FROM CHESTNUTS THOUGH. IT'S A JOKE USED BY OLD PEOPLE.

JUST OBEDIENTLY RECEIVE YOUR PUNISHMENT!!
OH SHUT UP !!!
I DIDN'T SAY IT LIKE THAT !!
EWWW, NEE-CHAN USED AN OLD PERSON GAG!!
She's getting so OLD!!

That's a wonderful dog
I WILL NOT LOSE TO HER!!
That's such a beautiful canary
TO SOMEONE WHO USES SUCH A CRAPPY OLD PERSON JOKE...!!
OH...
OH NO~!!
Pierce
Shot
!!
CLEAN HIT!!!
THERE'S NO WAY I WILL LOSE~



AH!
POP!
C... CRITICAL HIT...
Shit!
IT HURTS! OWOWOW

SO HOW ARE THINGS ON YOUR END, G3?
I SEE, SHE WAS TAKEN OUT IN A SIMULTA-NEOUS HIT.
!!!
IT'S BECOME A BACK AND FORTH BETWEEN US
...SHE'S REALLY STUBBORN.
AS LONG AS YOU'RE KEEPING SIG BUSY, THAT'S FINE.
ON THIS SIDE...

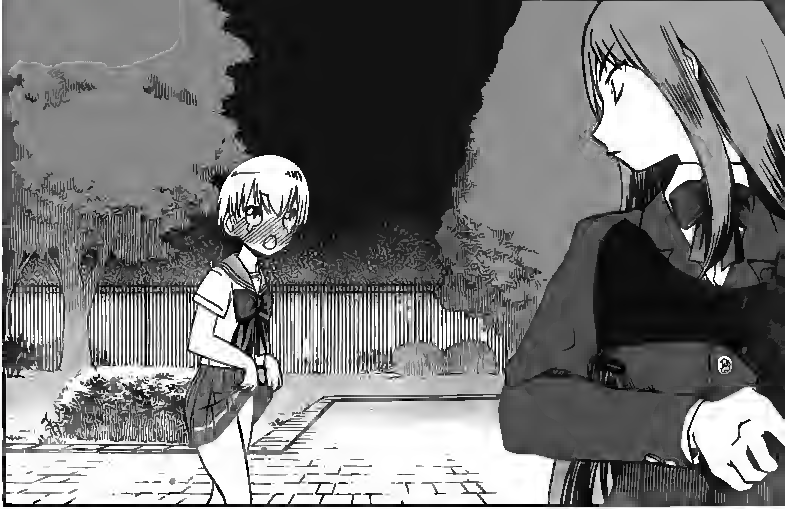
SIG
Funko's friend and an honor student. Is good at sports and studies. She is somewhat spontaneous.

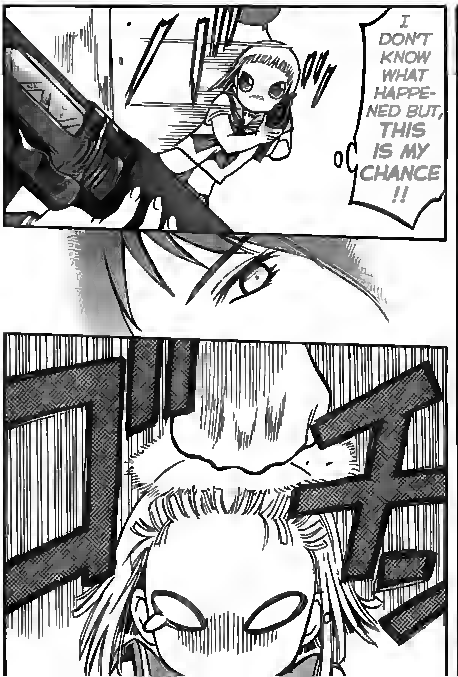
I'M ABOUT TO FINISH UP.

FAL-NEECHAN.
NOW WE'RE ON EVEN FOOTING...
FUNKO
ARE YOU SURE ABOUT THAT...
YOU LITTLE!

YOU'RE NOT ON EVEN FOOTING WITH ME AT ALL.
UNDER-STAND?
NO HITS !?
!?
WITH ONLY A WARHEAD WEIGHT OF 62 GRAIN (ABOUT 4 GRAMS) IT'S TO BE EXPECTED THAT YOUR BULLET'S TRAJECTORY WILL CHANGE BECAUSE OF THE WATER RESISTANCE
Power of the water
The bullet's revolutions cause it's trajectory to change when meeting water resistance
OUR 7.62 BULLET'S WARHEAD WEIGHT IS 80 GRAIN (ABOUT 12 GRAMS)
IN THAT CASE ...!
YOU'RE NOT ON PAR WITH ME AT ALL.
THAT'S WHY I PLACED AS MUCH OF THE WATER FOUNTAIN BETWEEN YOU AND I AS POSSIBLE.

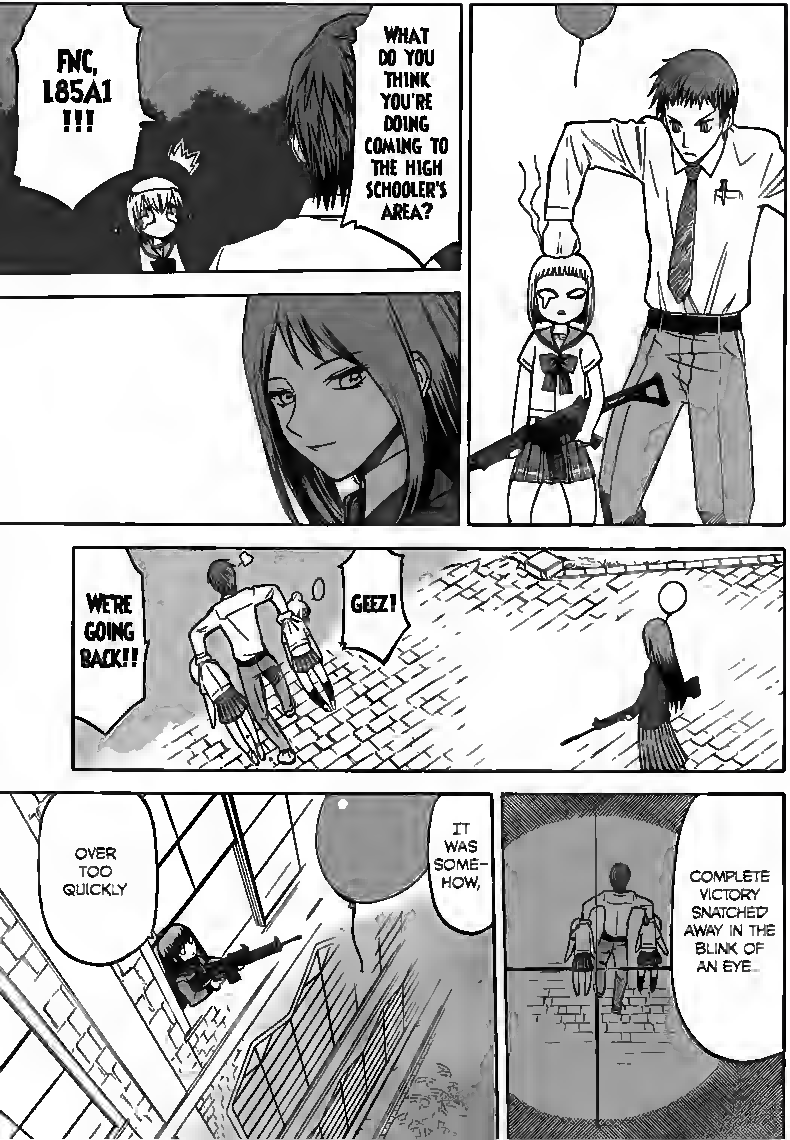
DO YOU REALLY THINK
I'LL ALLOW YOU TO COME OUT FROM THERE?
KYAH!
WHAT DO I DO? WHAT CAN I DO...!?
!!
CHECK-MATE
THAT'S NOT POSSIBLE !?
!!?





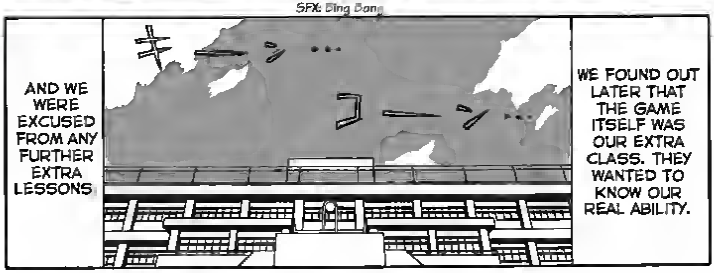
I DON'T KNOW WHAT HAPPE-NED BUT, THIS IS MY CHANCE !!

ELLE ...?



FNC, L85A1 !!!
WHAT DO YOU THINK YOU'RE DOING COMING TO THE HIGH SCHOOLER'S AREA?
WE'RE GOING BACK!!
GEEZ!
OVER TOO QUICKLY
IT WAS SOME-HOW,
COMPLETE VICTORY SNATCHED AWAY IN THE BLINK OF AN EYE...

SFX: Ding Dong



AND WE WERE EXCUSED FROM ANY FURTHER EXTRA LESSONS.
キーン…

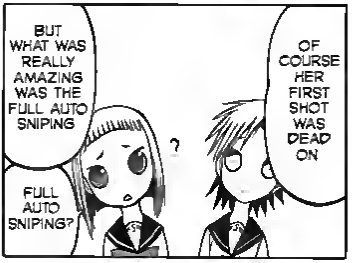
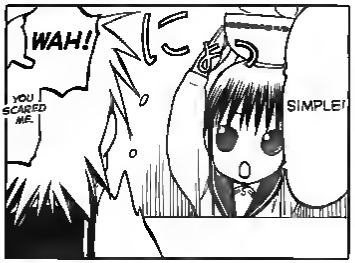
WHO KNOWS?
She's ranked third in the entire year
COME TO THINK OF IT HOW WAS SIG ABLE TO TAKE PART IN THE EXTRA LESSON BATTLE?

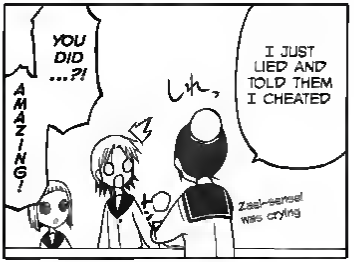


BUT WHAT WAS REALLY AMAZING WAS THE FULL AUTO SNIPING
FULL AUTO SNIPING?
OF COURSE HER FIRST SHOT WAS DEAD ON

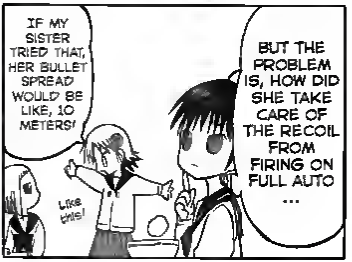


WAH!
YOU SCARED ME.
SIMPLE!

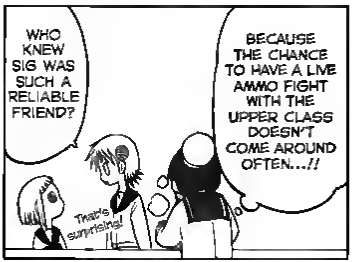
WHAT THE HELL!?
YEAH. SHE PUT 13 ROUNDS INTO A 20CM SPACE IN ONE SECOND



YOU DID ...?!
AMAZING!
I JUST LIED AND TOLD THEM I CHEATED
Zaal-sensei was crying



IF MY SISTER TRIED THAT, HER BULLET SPREAD WOULD BE LIKE, 10 METERS!
Like this!
BUT THE PROBLEM IS, HOW DID SHE TAKE CARE OF THE RECOIL FROM FIRING ON FULL AUTO ...



WHO KNEW SIG WAS SUCH A RELIABLE FRIEND?
That's surprising!
BECAUSE THE CHANCE TO HAVE A LIVE AMMO FIGHT WITH THE UPPER CLASS DOESN'T COME AROUND OFTEN...!!

Number 1

TELL US THE DIFFERENCE BETWEEN HANDGUNS AND RIFLES

First, the length of their frames and the ammunition they use are different.

How are they different? And why?

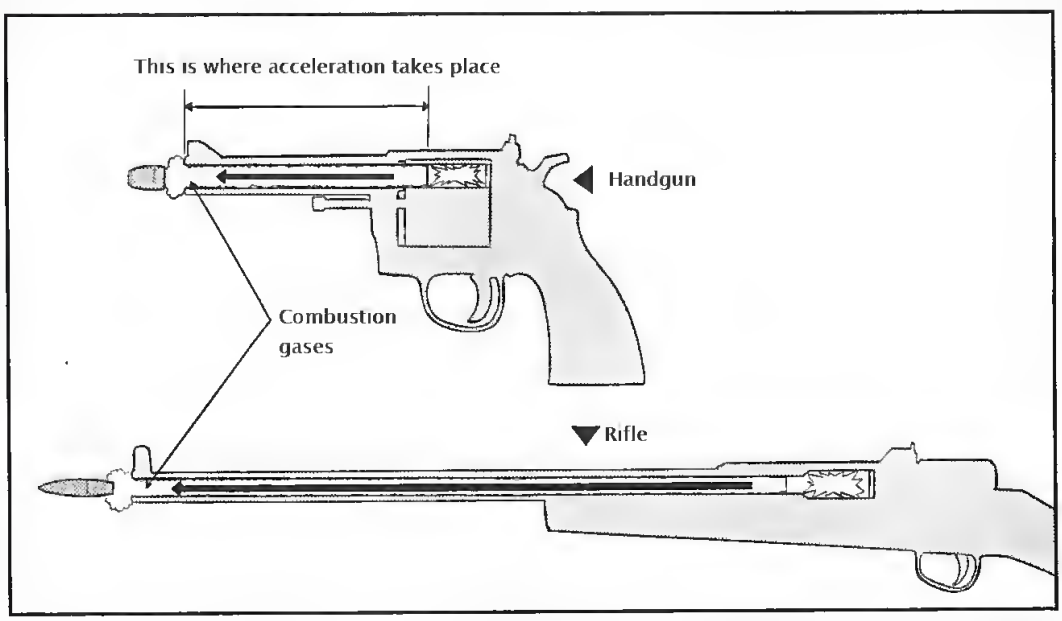
They are different in the volume of gunpowder and the shape of the bullet. Handgun powder has a fast burn time to generate enough speed in the gun's short body, while in rifle ammunition it has a slow burn time to generate enough speed in the rifle's long body. I saw 'slow', but we are talking about speeds measured in one thousandths of a second. The difference in bullet shape rests in the difference of purpose between handguns and rifles.

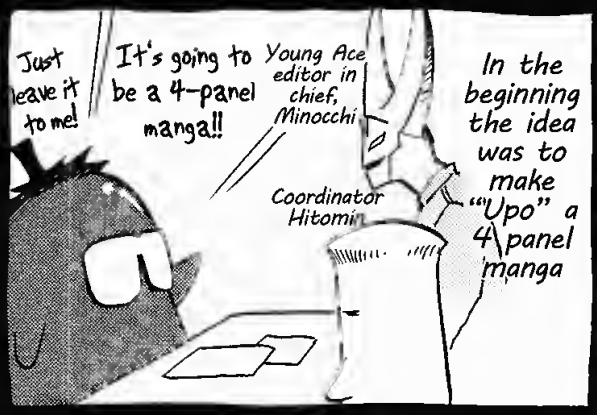
Purpose?

Handguns have an intended engagement range of 50 meters at most, with most firefights taking place within 10 meters. Therefore, stopping power is more appreciated than range, and so short, stout, heavy bullets are used. On the other hand, the engagement range for rifles is of 100–200 meters, sniper rifles aside. Reducing air resistance so that the bullet trajectory isn't deviated is what they look for, so they use slender bullets.

Funco, you're not too slender, are you?

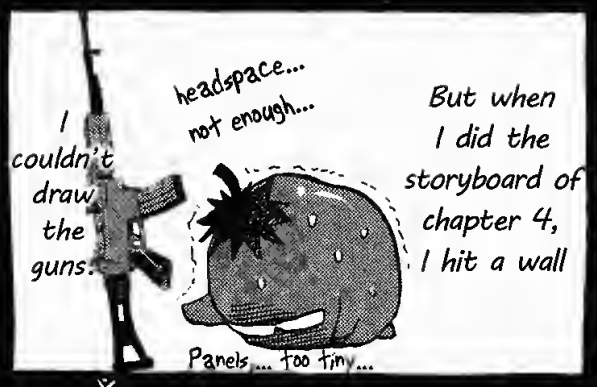
This is about the shape of bullets!
Shut up!



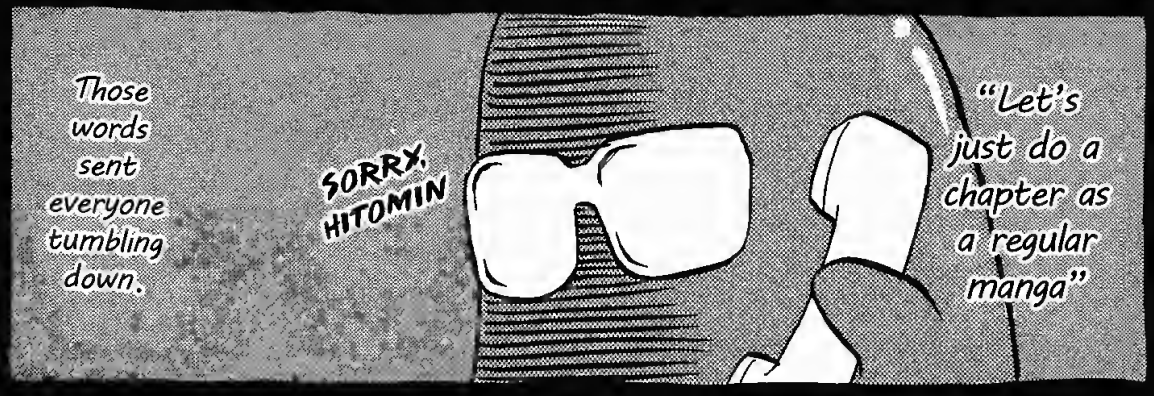


Just leave it to me!
It's going to be a 4-panel manga!!
Young Ace editor in chief, Minocchi
Coordinator Hitomin
In the beginning the idea was to make "Upo" a 4 panel manga

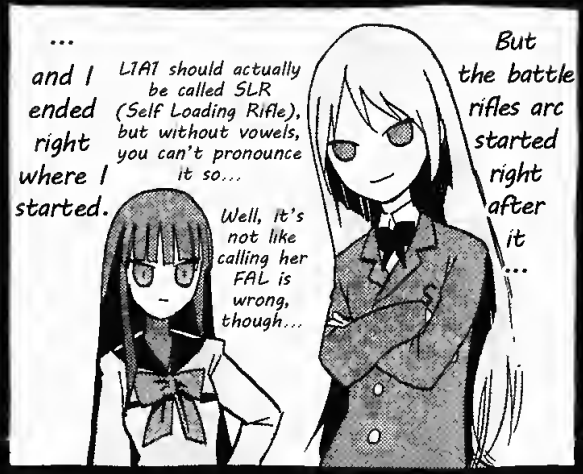
Personification
... there was no other way
To get people to understand that indefinible fascination ...



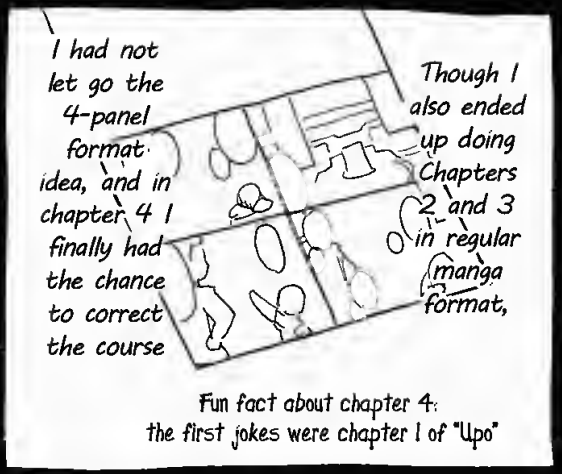
I couldn't draw the guns.
headspace... not enough...
Panels... too tiny...
But when I did the storyboard of chapter 4, I hit a wall



Those words sent everyone tumbling down.
SORRY, HITOMIN
"Let's just do a chapter as a regular manga"



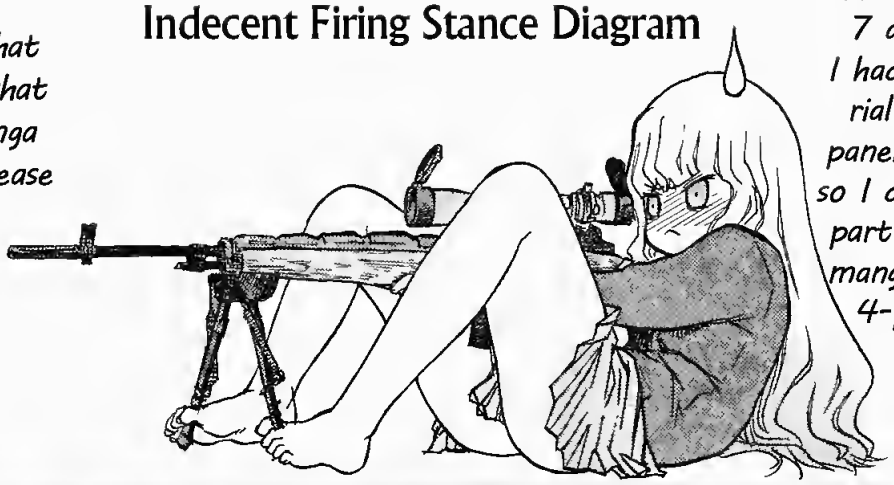
... and I ended right where I started.
L1A1 should actually be called SLR (Self Loading Rifle), but without vowels, you can't pronounce it so...
Well, it's not like calling her FAL is wrong, though...
But the battle rifles arc started right after it ...



I had not let go the 4-panel format idea, and in chapter 4 I finally had the chance to correct the course
Though I also ended up doing Chapters 2 and 3 in regular manga format,
Fun fact about chapter 4: the first jokes were chapter 1 of "Upo"

And now that you know what kind of manga "Upo" is, please read it!

Indecent Firing Stance Diagram



In chapter 7 and 9, I had material for 4 panels again, so I did them part normal manga, part 4-panel.
